

American Nuclear Society
Washington DC Local Section

Join the American Nuclear Society

2024 Nuclear Engineering Student Delegation (NESD)

Student delegates have a unique opportunity to directly engage with policymakers in Washington, D.C., educating them on and advocating for nuclear energy initiatives of critical importance to the United States.

Programs Available for Students and Young Professionals

✓ Connect with Others

With over 60 active Student Sections and an annual student-run conference, ANS is an association created by and for people like you.

✓ Learn from Mentors

Participate in the ANS Mentor Match program, where we pair you with an experienced professional in your field. You can travel to ANS national meetings with discounted registration and financial support to make career connections.

✓ Academic Resources for You

ANS offers numerous need and merit-based scholarships, full electronic access to all ANS publications. You can dive deeper into your studies or explore new topics with our online library of on-demand webinars.

✓ Become an Advocate

ANS champions nuclear as a clean, safe, and reliable energy source by advocating for policy, developing K-12 curricula, and providing scientifically-grounded information to the media.

ANS-DC Wants to Support You!

Our local chapter is committed to building a strong community of the next generation of nuclear professionals.

**We are offering to sponsor
your annual ANS student
membership!**

**Email us to get started. We
are excited to welcome
you!**
